The Hills

PRIVATE HOSPITAL

Rehabilitation Programs at The Hills Private are customised to suit all individual needs. Programs are designed to restore confidence, independence and mobility, and to enable people to return to normal daily activities.

Our rehabilitation services are for people following hip and knee replacements, as well as other types of surgery involving bones and joints, occupational health rehabilitation (WorkCover), injury management, and recovery from serious illnesses such as cardiac and neurological conditions.

On arrival, our rehabilitation team will assess you to create a specific rehabilitation program based on your needs and goals. Rehabilitation facilities include multiple purpose-built gymnasiums, a state-of-the-art hydrotherapy pool, and a caring and supportive team of healthcare professionals who will work with you as you move towards better health.

A complimentary patient transfer service is offered between Norwest Private Hospital and The Hills Private Hospital, ensuring a smooth transition from surgical care to rehabilitation.
